Mukhtar Arcade, UMukhtar Arcade, University Road, Haripur niversity Road, Haripur  
Haripur

Dear Mr./Ms.

My 1 year of experience in React.js developing, along with my 1 year of experience working as a Front-end web developer at **Codecue Solution** has acquainted me well with the nuances of the role. And, I also observed that the job description stated in by your team aligns perfectly with my job profile and background. My CSS3 and HTML5 skills are finely honed and all the web pages I created are mobile-friendly and responsive.

I am well-versed in working both in an independent and collaborative work environment and have a detail-oriented nature to solve challenging problems. Below are some areas of my accountabilities -

- Developing and managing React applications.
- Well-versed in all areas of React development, from setting up the environment to creating components using React.
- Expertise in HTML, CSS, and JavaScript..
- Used React JS and Redux for developing several internal tools

My deep understanding of the latest web development trends and technologies, coupled with my ability to quickly adapt to new technologies makes me a valuable asset to any company I work for. I would welcome the opportunity to meet you personally to discuss the position further and my candidature.

I am an excellent communicator and problem solver. I am able to work independently and as part of a team to ensure that projects are completed in a timely and efficient manner. I am also adept at managing customer expectations and addressing customer concerns.

My enclosed resume will share more details on my academic qualifications and employment background. In the meanwhile, I would like to thank you for gauging my potential for this role.

Sincerely,  
[Muhammad zakirya]
